

*What would your future be like if
all your dreams came true?*

Now you have the opportunity to think about how you would like your life to be in the future and we invite you to write a letter to yourself after having achieved your dreams.

To begin with, make a list of everything you really want, or would like to have in the future.

What you would like to study, the job you would like to have, the lifestyle you would like to lead. For example, would you like to travel, live in your neighbourhood, in another country? Think about these and similar questions before making the list.

Remember it's a dream and you can imagine what you want! As long as it's something you really want or are interested in.

List of things you want, or would like to have in the future:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

Now you have clear ideas about what you would like to do in the future and how you would like your life to be in the future, write a letter imagining that you are already in the 'future' and, from there, explain how you feel about it.

To help you in this task, you can start from this letter and fill in the gaps:

The future will bring you surprises, many of which you can't imagine. There are many things that are great fun, but I can't give you many clues, otherwise it could interfere with the past.

Lots of love, see you in the future.

Now think, if you want to make your dream come true, what can you do, how can you achieve it, what do you already have and what do you need?

Don't worry, if you work hard, you can make your dreams come true!
